

# GreenDroitin®: The next- generation vegan chondroitin sulfate

## Chondroitin market: A new era begins

GreenDroitin® is a groundbreaking vegan chondroitin sulfate, naturally derived from the *Tremella fuciformis* fungus.

Unlike traditional animal-based chondroitin, GreenDroitin® has been shown to effectively pass through the digestive system, offering **superior bioavailability** without causing digestive discomfort. This innovative product requires up to 1/3 of the dose compared to other chondroitin sources on the market, making it a more **convenient** and **consumer-friendly** option.

### Features

**Composition:** >90% vegan chondroitin  
**Molecular Weight:** Around 5kDa  
**Dosage:** 200 mg/day  
Approved for Feed Use

*High  
bioavailability!*

Findings from a **3D intestinal model** indicate that GreenDroitin® successfully crosses the intestinal barrier without compromising epithelial integrity. It demonstrates **superior absorption** compared to other commercial products, resulting in **enhanced bioavailability**.

Results obtained on an osteoarthritic model showed that GreenDroitin® treatment is better than other commercial products because **decreases inflammation** and **improves chondrocytes proliferation**, modulating the intracellular pathways involved.

## Do you know our low dose and consumer-friendly delivery forms?

### GreenDroitin® Film Strips

- Maximize your **joint performance** with GreenDroitin® Oral Strips. Each strip contains one full daily dose of vegan chondroitin sulfate from Tremella fuciformis.
