

# The vegan revolution for skin and joint health - GreenIuronic®.

GreenIuronic® is a patented, botanical hyaluronic acid derived from the *Tremella fuciformis* fungus, offering superior hydration and joint support. Unlike traditional sodium hyaluronate, GreenIuronic® is the only vegan and sustainable hyaluronic acid, setting a new standard for effectiveness in both skincare and joint health.

## Why GreenIuronic®?

- **Skin hydration:** GreenIuronic® acts as a moisture magnet, providing long-lasting hydration, improving skin elasticity, and leaving a dewy, youthful glow.
- **Joint mobility:** It supports joint flexibility, reduces inflammation, and helps maintain healthy cartilage, offering relief and comfort.
- **Sustainable and organic:** GreenIuronic® is available in an EU-certified organic version, ensuring eco-responsible production with the same high-quality effectiveness.

*World's first and exclusive botanical hyaluronic acid.*

## Scientific proof of effectiveness:

New data from the **ADME study** shows that GreenIuronic® is efficiently absorbed and distributed throughout the body, including key areas like:

- **Skin:** A significant amount of GreenIuronic® is absorbed by skin cells, providing **intense hydration** and reducing inflammation.
- **Joints:** More than half of GreenIuronic® is internalized by chondrocytes (joint cells), indicating **high processing** for joint health support.
- **Systemic benefits:** GreenIuronic® is minimally excreted, meaning **prolonged availability** for tissue delivery and effectiveness.

GreenIuronic® combines cutting-edge science with a commitment to sustainability, aligning with the growing demand for **eco-responsible consumption**. Embrace nature's hydration and experience the transformative benefits of GreenIuronic® for your skin and joints.

## Do you know our low dose delivery forms?

### GreenIuronic® HydraGel

Experience advanced skincare with GreenIuronic® Hydrogel, formulated with Tremella fuciformis for exceptional hydration and skin benefits:

- **Long-lasting hydration:** A powerful humectant that locks in moisture, leaving your skin soft, refreshed, and hydrated.
- **Gentle on sensitive skin:** Biocompatible and soothing, perfect for sensitive skin with an immediate cooling effect.
- **Clinical efficacy:** Proven to increase hydration by +125% in 30 minutes and maintain it with a +49% improvement after 24 hours.
- **Non-greasy:** Delivers hydration without a heavy residue, ideal for quick absorption.

### Key benefits of our GreenIuronic® HydraGel:

- Excellent skin moisturization
- Long-lasting hydration
- Vegan and free of perfume
- Dermatologically tested and certified
- Suitable for normal, dry and sensitive skin
